

Atletico de Madrid Technical Development

August 2025

Does your child dream of becoming a professional football player?

Give them the skills to get there!!!

New Atletico de Madrid project - Technification academy which offers a new form of specific training for individual improvement, with the aim of working on the integral training of the player in all tactical and technical aspects, both individually and collectively.

The players will learn the Atletico de Madrid methodology, while they can keep training and playing with their usual clubs.

The Technification Academy is open to all players who want to develop their technique, knowledge of game systems and movements with specific tasks by position.

Don't wait and join Atletico de Madrid Family today!
